Back of Frame

"Bleed" your artwork into this window opening. This area will not print, but is needed for production.

Front of Frame

Back Inside of Frame

Polaroid Frame Template

Item No. F6637

Please add 1/8" bleed to all outside edges. This means if your artwork goes to the edge of the template, overlap it by 1/8" on all outside edges.

Do not flatten your artwork layer with the template layer!
Keep this file as a layered document, with our template on one layer & your art on consecutive layer(s).

When you are completed, call 1.800.827.0673 for instructions on how to send your artwork to us.
